

JESSICA HUBBARD**AGE: 40**

Education Nonprofit Executive

My interest in our schools is both professional and personal. I have over 20 years of experience teaching children and leading schools, advocating for youth, serving career technical colleges, and motivating students. But I'm also the parent of a Capo student, and like all parents, I want to ensure my children are receiving the best opportunities and experiences possible.

My experience is unique and important. I am: a former public school teacher, a former school leader, a lawyer, a current nonprofit leader, and a parent of a Capo student.

My plan puts a focus on student experience and student outcomes. As your Trustee, I will work to: strengthen TK-12 STEAM learning opportunities; emphasize both core subjects and co-curricular activities; promote fiscal responsibility and eliminate wasteful spending; build partnerships between parents, teachers, and students through forums, town halls, and task forces.

I am running because I believe that we are stronger when working together and leaning on our individual strengths- where parents are leading their children, teachers are leading their classrooms, and students are feeling universally supported in their journey to grow and learn.

Jessica Hubbard for CUSD School Board Trustee Area 2
