

MARLENE BRONSON

Parent/Server

My name is Marlene Bronson, and it is my honor to declare my candidacy for the Irvine Unified School District, Trustee Area 2. I believe we must advocate for students and parents, ensuring that children have the highest quality education and are prepared to thrive in society.

As a former stay-at-home mom, homeschool teacher, business owner, lead manager, and volunteer advocate for children with disabilities, I have the experience to improve our public education for students. I have been active in my community since 1993 as a server and student.

It is vital that we raise the current and future generation of children with the tools needed for the present while learning and applying our history in the education system. The Declaration of Independence teaches us valuable lessons that enrich the lives of preschool, elementary, high school, and college students to respect the land and love one another.

As a parent and lifelong community member, living in Orange County since 1991, I will do my best to prepare children with knowledge and wisdom by enriching their lives to thrive. I believe that teaching children honestly is vital for us in Orange County, CA, and in the United States of America.
