

**KRISTEN NICOLE VALLE**

Executive Assistant

We don't need a complete overhaul in our school system, but we do need to pluck out the poison and hold everyone accountable for their roles in raising up the future of our nation. Teachers need to teach and parents need to parent. Parents deserve complete transparency of curriculum at all times. Our district is hiding Critical Race Theory under the cute name, Social Emotion Learning. Schools are producing depression, anxiety and suicidal ideation by subjecting young minds to matters above their maturity level and brain development. Early schooling should be about the basics, not magic tricks like picking out of 72 imaginary genders. The teachers union is an evil mafia using your kids as a science experiment to become revolutionaries. Good teachers are being held hostage by evil curriculum. I've done extensive digging to find the root of the issues and will not stop fighting to fix them. Let me serve you while I have the time, passion and stamina to do so. I'm the candidate not backed by an establishment, but by the people. To learn more about my ideas for school board, visit my Instagram account @kristen\_valle
