

BARBARA SCHULMAN

Governing Board Member, Saddleback Valley Unified
School District

As your incumbent SVUSD school board member, I continue to be a strong proponent for public education. I have been a parent, teacher, and board member within SVUSD. Each of these roles has provided me with a broad understanding of what is necessary to have the best school district possible.

I believe it is important to interact with the school community and I regularly visit SVUSD schools. I enjoy participating in classroom activities and attending sporting and performing arts events where I can connect with students, teachers, and families. These interactions have helped me better understand our school community needs.

During my tenure as an SVUSD board member, I have supported increasing security at all school sites, adding mental health and school counselors, and increasing communication, all while improving academic standards and maintaining a balanced budget.

Other areas of community involvement:

Being a member of every PTA in our district

Member of the Kiwanis Club

Attendee at RSM Chamber of Commerce functions

Involved in ROP- classes in career technology.

I ask for your vote to continue to serve as your School Board Trustee.
