

**CHRISTINE HERNANDEZ**  
Nonprofit Program Director

As a parent and community leader, I know that public education is essential to our community. For over a decade, I worked as a college educator and administrator supporting many students. So much in education has changed over the years and a fresh voice on the school board can help ensure that our children receive a quality education. Strong family and community partnerships help lead to that success.

If elected, I will prioritize our students, work with our district to ensure that we support our teachers and staff, and engage our community in order to strengthen our schools. Together, we can promote safe and healthy schools.

I received my bachelor's degree from California State University, Fullerton and a master of science in education from the University of Pennsylvania. A lifelong learner, I continued my education with a graduate certificate in nonprofit management at George Mason University and a wellness coaching certificate at Coastline Community College. With a fresh perspective and open mind, I am ready to serve the community as a member of the board. With your support, we can make a difference.
