

ANGELA SALINARDI

AGE: 45

Parent/Holistic Practitioner

As a life-long resident of Huntington Beach, a graduate of Marina High School and Goldenwest College, I understand and care for our schools, students and community. I am a mom of a high school student athlete, which keeps me current on what is happening in our schools.

Let me be your voice, to focus the work of Huntington Beach Union High School District in restoring local control over:

- providing parental choice over masks, vaccines and all health-related issues
- curriculum which reflects the values of parents
- offering financial literacy courses
- providing robust vocational and career pathways
- increasing communication between parents and teachers
- transparency in and access to course content for parents
- allocating funds to benefit students
- supporting our teachers and staff

I will work diligently to advocate for all students, make decisions consistent with the values of our community and represent the principles of faith, family and freedom.

I look forward to your vote!
