

BONNIE CASTREY

Governing Board Member, Huntington Beach Union High School District

Dear Voters,

As a Board Member, I use my mediation skills to bring together students, parents, and staff with differing viewpoints to solve problems and enhance District programs. These leadership strategies have enabled our District to focus our financial and human resources on the educational needs of all students, enabling students to become creative, responsible, productive citizens in our democracy.

Measurable education results include: increased student achievement; challenging academic, visual, performing arts and athletic classes; dual enrollment; The Giving Farm; STEAM; pathways of learning for career and college bound students; high quality instructional materials; improved technology and modernized, emotionally and physically safe learning environments.

My proven leadership and cooperation with other districts, cities, businesses and senior citizen organizations results in substantial benefits for all students through coordinated programming, services and activities. Awards include: OCSBA Marian Bergeson Leadership Award; 2019 Golden West College Pillar of Support; 2022 OC Music and Arts Award, Arts Advocate; and 2022 Woman of Distinction Legacy Award, City of Huntington Beach.

I want to continue working with you and HBUHSD's fine staff to meet the challenges of providing quality programs as our District pro-actively manages resources and implements challenging instruction for all students. I'll continue to fight for additional resources to educate our students. That's why numerous community leaders, teachers, nurses, psychologists, counselors and staff endorse me.
