

RALPH LEFEBER**AGE: 58****Student Transportation Manager**

My name is Ralph Lefebber. My wife and I just celebrated our 20th anniversary and together we are blessed with 2 children. My oldest is on the path becoming the first educator in our family and my youngest wants to become a paramedic as she finishes her last year at Beatty Middle School. Residing in Buena Park for the last 11 years, serving as a Bible teacher for the little children in our community and supervising student transportation for the LA area for the last 29 years, I learned many valuable lessons about diversity, family, and the importance of engaging in our children's life. I witnessed how dedicated the Buena Park School District has served my two children for these past 11 years, I am inspired and have decided to give back and serve our school community. By God's grace and through my leadership experience with my company and ministry, I'm confident and committed to partner with families, community, and schools to ignite our students' passion for learning. I'm committed to become every student's champion so they can reach their full potential and become a champion for the next generation. Would you partner with me and serving our community?
