

SANDRA CRANDALL

Governing Board Member, Fountain Valley School District

It's been a joy serving you these past four years. I've kept my promise to support policies, programs and practices conducive to increased safety and success for all children.

We maintain our well-earned reputation as a locally controlled, top academic performing district in Orange County. We hire high quality teachers, provide strong school leadership, set high standards, deliver rigorous core curriculum, assess progress, integrate technology and maintain safe schools. We motivate students and encourage parent involvement.

I continue to support investing education dollars where they matter most – in programs which spur student achievement and in people who have the expertise and dedication to that goal. Oversight is strong on the use of your generous tax dollars in completing air conditioning and modernization at all schools.

I retired after a successful 39-year teaching career in Fountain Valley School District. My passion for quality education, coupled with my time, interest and expertise, is my reason for wanting to continue to serve.

My husband, Larry, and I have three children and four school age grandchildren.

I am board liaison to our Superintendent Parent Council, Schools Foundation, Safe Schools Task Force and volunteer with the Fountain Valley Community Foundation.

Voting for me ensures continued support for a quality education our children and community deserve.
