

JULIE NORTON

Parent/Business Owner

I've been happily married for 20 years. I'm a stay-at-home mom to our four daughters, and all have attended or are attending Huntington Beach public schools.

I'm a 20+ year HB resident, and more than 15 of those have been dedicated to volunteering in the classroom. I now feel called to serve in a larger role.

Over those 15 years, I've watched with disappointment, our school board members' gradual disregard for parents rights, the educational needs of students, and overall support for teachers.

The current Action of our districts' refusal to communicate with our local community has made it clear their allegiance is to the state, district staff, and lawyers - not us.

I'm dedicated to representing you, our children, and our community. Together we can bring real change.

Parents' concerns should be respected and allowed to be agendized and openly discussed at public meetings - I will make sure your voices are heard.

I support choice - I will never agree to classroom closures for those who want and need in-person instruction, masking healthy children, or forcing an experimental vaccine on students, teachers and staff.

I will never support divisive, state driven political ideology, indoctrination, or activism.

I will fight to restore our schools - prioritizing a quality education that will prepare our children and give them hope for a successful, and prosperous future.

My 15+ years of volunteer experience in a parent-teacher partnership, working with staff and other parents makes me uniquely qualified to bring a new and necessary expertise and perspective to the board.

I would be honored to have your vote.

Your Kids. Your Choice. Your Voice.
